Heavy Duty Steel Bar Clamps: IBeam

Heavy Duty Steel Bar Clamps: IBeam

The **BESSEY® IBeam clamp** is rough, strong and durable for a wide variety of industrial grade tasks.

- Large clamping surface
- Large crank handle
- Nominal 7000 lb load limit
- Robust IBeam bar
- Industrial all-round clamp

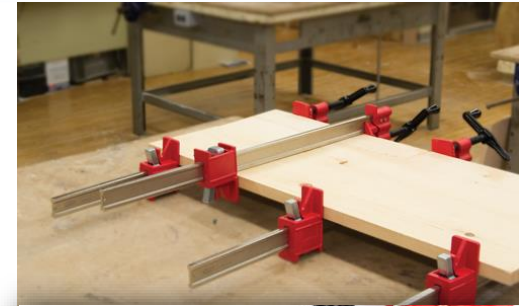

Heavy Duty Steel Bar Clamps: IBeam

Simply better.

IBeam series features:

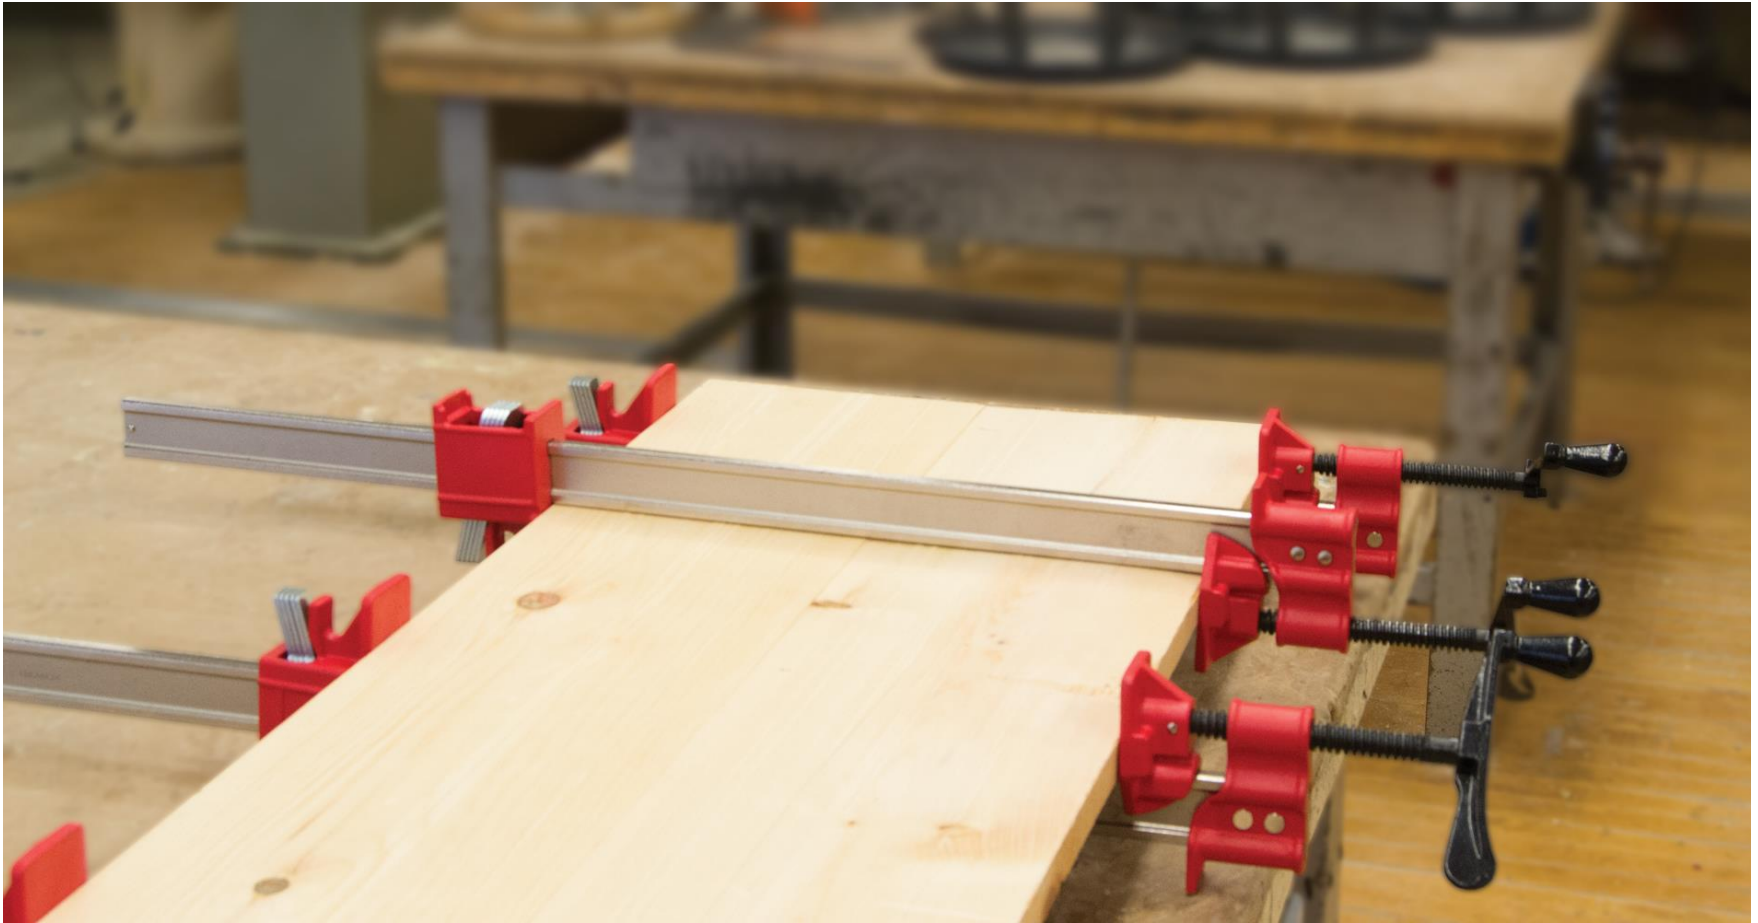

- ❑ Nominal load limit of 7000 lbs.
- ❑ Ductile castings for high strength.
- ❑ ACME threaded spindle for string and fast force application.
- ❑ Nickel plated rail for corrosion resistance
- ❑ Five (5) hardened clutch plates for tough clamping applications
- ❑ Range of sizes from 24 In to 96 In.
- ❑ Large crank handle is easy to grip
- ❑ IBeam construction is resistant to bending over longer applications
- ❑ Throat depth of 2 In
- ❑ Hourglass profile helps resist flex
