

## FOR IMMEDIATE RELEASE

### BESSEY One Hand Clamps (EHK Series)

**BESSEY** is adding a complete range of new one-hand clamps with the introduction of the EHK Series. This clamp offering provides a selection of clamping capabilities and, is a complementary addition to the more specialized DuoKlamp, PG, EZ and EZS Series. As a company that is focused on clamping, **BESSEY** is pleased to support a best-in-class range of one hand clamps.

The new **EHK Trigger Clamps** have been engineered from the start to offer a clean design, comfortable handles, up to 600 pounds of potential clamping force, and the ability to quickly transform from clamping to spreading without using tools. All that is required is a quick push of the locking mechanism to disengage the fixed jaw, move it to the opposite end of the rail and re-engage.

The EHK Series is ideal for the home owner or professional craftsman seeking a range of clamping options that are ergonomically designed, well engineered and competitively priced.

#### 14 Clamps to Choose From:

Clamping Capacity from 4-1/2" to 50"

Throat depth from 1-5/8" to 3-5/8"

Clamping Force from 40 to 600 pounds

Quality you can count on

BESSEY. Simply better
