One-handed Table Clamps: EZR-SET

One-handed Table Clamps: EZR-SET

Simply better.

- ❑ One-handed trigger clamp designed for use on track tables (with 12 x 6.5 mm to 12 x 8 mm slots/grooves)
- ❑ Works with Festool, Bosch, Metabo, Makita/Hikoki and DeWalt systems
- ❑ Push button release mechanism makes it easy to convert from clamping to spreading to step over work
- ❑ 100 lbs of clamping force
- ❑ EZR-SET contains two one-handed table clamps with 6" clamping capacity (spreading width 4 3/4" to 12") and 2 3/8 throat depth

One-handed Table Clamps: EZR-SET

Simply better.

❑ 4-in-1 clamp innovation

- Clamp on track table systems
- Use 2" adaptor in upper or lower jaw for step over work
- Converts to a spreader without use of tools
- Easy to clamp with one-handed trigger technology

❑ Robust construction

- Fibreglass reinforced polyamide
- Profiled rail for extra stability
- 2 K handle for comfort and safe handling
- Fully enclosed plastic housing is protected from dust and chips

❑ Pad with cross prism design

- Allows secure fastening of round, pointed and angular pieces

❑ No tools required

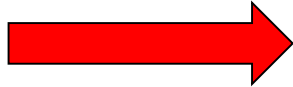

- Easily converts from clamping on a track, to spreading and step-over work by using the push button jaw release

One-handed Table Clamps: EZR-SET

One-handed track clamping innovation with so many other possibilities!

- ❑ No tools required to transform this versatile track clamp to a spreader or step over tool

Clamp to table track systems
