Woodworking: One Hand Clamps
DuoKlamm

Woodworking: One Hand Clamps (DUO)

- 1) Large jaw surfaces for a one-hand clamp. The impact and fracture resistant jaws allow for a soft touch on the work surface
- 2) Clamping and spreading with the turn of a dial; nothing to reverse other than the dial and, you are ready to spread or clamp

Woodworking: One Hand Clamps (DUO)

- 1) Ergonomic handle runs parallel to the rail for a straight-line approach to the work surface
- 2) Soft pressure caps do not mar the woodworking surface

Woodworking: One Hand Clamps (DUO)

DUO Series:

- ❑ 3 ¼" throat depth, 260 lbs clamp force
- ❑ Clamping capacity of : 6", 12", 18" & 24"

Thank you for your attention!
